Company Statement:

At ABUD, our mission is to consistently design, engineer and install unique infrastructures for our company and for the world.

Products and Services:

ABUD is proud to supply & install a range of standard and custom products. This product range includes Bridges, Boardwalks, Viewing Platforms and Restrooms. We are also currently developing a range of street furniture that mixes both modern and classic designs.

ABUD reserves no limits when it comes to materialising custom designs. We enjoy taking on new challenges and broadening our horizons.
